Mo

Maybe this is something we should discuss at the public works meeting . There are a few unimproved streets in the city that we should figure out who's responsible for taking care of.

Fischer, E. Polk, and Peschel, To answer Jeff's question the Dpw plows and salts E. Polk St. to the west when there is ample amount on snow to plow. So far this year we have just salted the city streets and not done anything with our unimproved city streets... " the gravel ones"

Chad,

Jeff Landsee identified a recurring slippery sidewalk area on Jefferson Street. It is actually a portion of the intersection of Jefferson heading west on the unimproved area of Polk. What are your expectation for clearing this pedestrian walk area. Has the Antique Mall cleared it in the past? Understanding that Jefferson is a future reconstruction project, he suggested an asphalt patch for this area as an interim remedy to the slip hazard.

Jeff,

Thanks for the email. Sent via the municipal webpage. The municipality is responsible for public sidewalks. Often the City Council will charge improvements/repairs for sidewalks to the abutting private property owners.

Do you have a particular section which is of concern?

Describe your request or question

Who is responsible for the sidewalk on Polk St. and Jefferson St. . Why has it not been fixed in 10+ years?
