Public Works and Property Meeting Minutes from April 2, 2015

1. Call to Order and Roll Call: Chair Springer called the meeting to order at 6:30 pm Roll Call: Present: Stinnett and Springer with Ziaja absent. Mayor Thompson, Public Works Director Yerges, Utility Superintendent Weihert, Utility Crew Forman Sorenson and Deputy Clerk/Treasurer Baird were also in attendance.

2. Approval of Meeting Minutes from March 5, 2015: Moved by Stinnett, seconded by Springer to approve the minutes from March 5, 2015. Voice vote: Motion carried.

3. Public Comment: None

4. Discussion/Decision Items:

- o **Piggly Wiggly 810 N. Monroe Street Transfer Private Sanitary Sewer to Public Sanitary Sewer:**

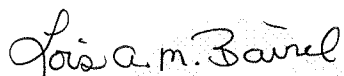

There was extensive discussion regarding the transfer of the private main owned by the Piggly Wiggly and the apartment owner to the Utility as a public main. Weihert explained that it would cost the Utility more if they were to take the main over, it would no longer be private. Sorenson explained when a developer turns the main over to the Utility they have to show it on their books as an asset. Their auditors are telling them that there is no benefit for the Utility to take it over.

The committee requested Weihert to supply cost information, how much will it cost the Utility to make the main public.

5. Future Agenda Items: None

6. Adjournment: Motion by Springer, seconded by Stinnett to adjourn. Voice vote. Motion carried. Time 6:40 pm

Minutes written and submitted by

Subject: RE: water main

Gene,

This is a tricky question really dependent upon the specific situation. If the water main becomes public and is turned over to you then you are responsible for the maintenance and upkeep, but you also control this and can minimize leaks or operational issues. If the water is metered after flowing through this main then any water leaking from the main is now part of the general distribution system losses however you have no control to fix the main and reduce water loss if it is private. Of course, if it becomes public but is on private property then you also have to consider easements and questions of access and what responsibility you would have to repair/replace the roads, parking lots, etc. that the main is under.

On the other hand, if it becomes public then it goes into your rate base and tax base resulting in an impact on PILOT, depreciation and return. Really this comes down to looking at the operational side and if you believe it is better for the utility to have responsibility and control for maintaining, repairing and replacing the main.

Subject: water main

Good morning Jodie: I was wondering if there is some benefit the Utility would see to have private water main get turned over to public? Was wondering if you had any thoughts on this.
