Monday November 2nd, 2015

On Monday October 12th, 2015 we had a combined training with Fire and EMS personnel. The training was on search and rescue efforts on a downed hunter. This training was done on public hunting land with the approval from the warden. The warden was also present to see how we operate for a search and rescue team. We had one of our members be the downed hunter with some injuries. The team needs to start from a point for a reference and work out from there and complete a grid search. This training is good to work on communication and teamwork. Once the downed hunter is found then the EMS members must treat the wounds and notify command if there is need for a helicopter. Once the EMS have the patient immobilized and wound care taken care then the Fire members have to transport the patient out of the woods and to the ambulance.

On Monday October 19th, 2015 we had a combined training with the Fire and EMS personnel. This training was for an injured patient on a second story area and the only access was through a second story window. The fire personnel have to gain access to the structure and make sure EMS personnel can get in the structure with equipment to immobilize the patient and get ready for extrication. The fire members have to be able to remove the patient to the ground on ladders and ropes.

We had 4 members in a 40 hour car seat technician course at the beginning of October. This course will keep our children in the community safe in their car seats. The department can now hold car seat checks to make sure that the car seats are installed properly and that the right car seat is being used for the child. They will also be teaching the parents about the car seats.

Sincerely,

Chief Vern Butzine

WATERLOO FIRE & RESCUE
900 INDUSTRIAL LANE
WATERLOO, WISCONSIN 53594

Tuesday December 1st, 2015

On Monday November 9th, 2015 we had our monthly EMS training. We had a guest from 3 Rivers Billing. Brad came and spoke to our department about HIPPA (Health Insurance Portability and Accountability Act) laws. This training is to make sure our members know that when they take care of a patient no information is to be given to anyone. This is very important for the members to know and to keep the information confidential. The other part of training was blood borne pathogens. We have to review this training every year to make sure we protect ourselves from other bodily fluids. We train on how to prevent this from happening and if it would what needs to be done.

On Monday November 16th, 2015 we had our monthly Fire training. We trained in the burn trailer at the station. We started a fire and the members felt what it was like and what to expect. They need to learn how to remain calm and complete their job. The other part of training was hydrant hook ups. This may seem like something easy to complete, but they have to remember to grab the equipment that is needed and stay calm to complete the task on hand. If we do not have the hydrant we will run out of water. This is a timed training.

Sincerely,

Chief Vern Butzine
