**Subject:** On-going citizen stormwater complaint / 454 S. Jefferson Street

Mitch,

Dave Lenius has asked that a storm water matter at 454 South Jefferson Street be addressed again by the Public Works & Property Committee. Can you pull your files on this storm water matter and forward what was proposed for the private property owner to Dave?

Dave Lenius ([dlenius@degolierprinting.com](mailto:dlenius@degolierprinting.com); 608-514-4830 ) met with the Public Works and Property Committee several years ago asking for a remedy to stormwater flowing from Jefferson Street down the driveway at 454 South Jefferson Street. At that time you shot grades and met on site describing grading on private property as a remedy.

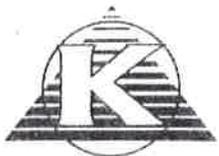

Today by phone he said no private grading had been done. He said water flowing directly from the street hasn't been addressed; stormwater basins south of the driveway installed on the Waldo and Hedges (formerly Yohn) properties when Lloyd Ratcliff originally brought the matter to the City more than a decade ago are not remedying the situation. He again seeks a municipal remedy for water flowing from the public right-of-way down his driveway.

The Public Works & Property Committee next meets March 1 @ 6 pm. Dave Lenius indicated he does not have all the information from your prior municipal actions. Can you contact him and supply him with the previous information, in advance of the meeting? Dave indicated that lawn grading is not a complete solution, and water flowing from the street surface to the driveway needs to be addressed
