Don,

Thanks for taking the time to talk to me about a security system for the proposed Waterloo Trailhead Facility.

Our areas of concern are:

Cameras:

Interior of the building cameras in the hallway and in the Warming Room.

Around the exterior of the building including the shelter area.

Parking lot

The walk path is not being considered at this time

Intrusion Alarm system for the building covering the hall way and warming room.

Alarm system either just alarm and light signal or dialer set up to call out over the internet.

The building will have internet access but not telephone at this time.

We have aircards on the laptops computers in the squads and. We would like the ability to log into the system to view real time. Would also like a recording system for the cameras, which is capable of recording all the cameras for a minimum of 3 days(longer if possible) before recoding over itself.

There is a storage room on the north side of the Warming room and a utility room in the south west corner the building, for possible locations of equipment.

I look forward to working with you.

Timothy Thomas
