great layout that helps one easily locate what there is to do in Asheville, what amenities it offers, other businesses in the area and their testimonials, and how one can get their own business started in Asheville. This is all easily found from the homepage as illustrated on the previous page. For more information on building a successful and attractive webpage see Alternative 1.4.

STRATEGY 2.4: Loyalty Card

DESCRIPTION

Loyalty cards are a great way for local residents to save money while helping businesses as well. Loyalty cards support the local economy while providing incentives for people to shop at local stores, restaurants, and businesses.

RATIONALE

According to INC., can cost a business about 5 to 10 times more to acquire a new customer than it is to sell to an existing customer. As a way to encourage residents to shop local, businesses can use loyalty cards.

IMPLEMENTATION

Once businesses have been attracted to Waterloo, it would be beneficial to work with other local cities to develop a loyalty card program. There are several different types of loyalty cards, but all work to benefit businesses and customers.

Loyalty cards are a great way to increase a business and cities exposure. When people are part of a loyalty program, they can access rewards, promotions, and newsletters about local restaurants and deals. It is also a great way to reduce paper coupons with one card.

The loyalty card could be a local, regional, or national program.

Some tips on how develop a successful program:

- Use a simple points system
- Partner with other businesses to provide all-inclusive offers
- Develop a tier system so the more people spend, the more they feel they get

Loyalty programs also support businesses by resulting in a return on investment. Typically the cost to businesses comes in what is being offered. A typical reward program will have a reward in the range 8% to 10% of the cost of the item. So a buy 10 get one free deal would provide a 10% reward. By keeping in mind how many people would use the program and how much they might spend, the costs for the
