WATERLOO FIRE & RESCUE  
900 INDUSTRIAL LANE  
WATERLOO, WISCONSIN 53594

Friday January 3<sup>rd</sup>, 2025

On Monday December 2<sup>nd</sup>, 2024 we had our monthly Operators training. Training was on hydrant hook-ups, hose advancement and search and rescue. Hydrant hook-ups need the members and operators have to communicate and work as a team to make sure a good water source is ready when needed.

Hose advancement is the movement of the hose, meaning making sure we have enough hose for where we are going for attacking the fire and moving the hose when we are flowing water to get keep the fire under control. Search and rescue, is where we have our members go into a structure and search for victims. Operators have to make sure they are in communication so when they or if they find a victim that they are ready outside to assist with getting the victims out.

On Monday December 9<sup>th</sup>, 2024 we had our monthly EMS training. Training was on respiratory emergencies. With the season in effect for respiratory distress we reviewed all the potential problems are out there. We also reviewed all the different lung sounds there is and what they mean and what we should do for treatments.

On Monday December 16<sup>th</sup>, 2024 we had our monthly Fire training. Training was on live fire scenarios. With our training grounds that we have, one of the trailers is mainly for live fires. Engine crew with 6 members went at a time. Operator got water ready, set ladders and got equipment ready if needed. Officer completed 360 and then met with firefighter that deployed the hose for attack and advanced for fire attack. Search crew got ladder set up and search in a smoke-filled room for victims, found victims and removed them.

On Monday December 30<sup>th</sup>, 2024 we had our quarterly Combination training. Training was on RTF (Rescue Task Force). Rescue task force team is utilized when there is a threat to other people that have used a gun, knife or other means of harming people. The RTF team has to enter the hot or warm area and triage and treat life threatening injuries and have the victims removed by another team. With this training, we need to work with law enforcement as a team.

We want to thank the Waterloo Police Officers that were able to make the training and be able to work as a team.

We also want to thank the 13 citizens that came out and did an amazing job being our victims.

Update on the remounted ambulance. We do currently have it back in the area. The unit is currently over getting decals and letting put on. The inspector gave us a small list that needs to be completed before it can go into service. As soon as we get it back from decals, we will check off all drivers on driver training skills and test out.

Sincerely,

Lieutenant Jason Butzine

## **Waterloo Fire Department Meeting Minutes**

### **December 23rd, 2024**

Called to order: 7:02pm

A special thank you to F&M bank for providing dinner for us tonight. F&M Bank also presented a \$1,000.00 donation to the fire department.

Roll Call: sign in sheet passed around.

Minutes from the last meeting were read by Kaitlin. Motion to approve as read by Eric, 2nd by Garry.

Public Comments/Items not on the agenda: none.

#### Old Business:

- a. EMS Scheduling: New Years Eve 3rd shift still open. January looks good so far.
- b. Training Log: Please turn in written excuses to the respected training officer. Please also remember to make up training within the month you missed.
- c. 5th Monday Training: December 30th, 2024. We will be doing RTF training at the Methodist church or St. Johns. Please contact Jason if you know volunteers willing to be victims.
- d. Policies: Currently on hold and being reviewed by the city finance committee until their next meeting.
- e. Any other old business? none.

#### New Business:

- a. Critique past calls if needed - none.
- b. EMS Training - CPR and Bloodborne pathogens/HIPAA assigned on Target Solutions.
- c. Fire Training - Ice Rescue
- d. MPO Training - TBD
- e. SS Number on Run Reports: It is not required but does help with billing. Please try to remember to ask patients if they are willing to provide their SS number, they do have the right to decline.
- f. Lifepak Events: the problem uploading events should be fixed. Please report to Wes if you have any further issues.
- g. Ambulance Update: The remount is currently in Lake Mills to have the decals applied.
- h. Trek Race: Trek will be hosting time trials and a road race on May 2nd and 3rd, 2025. We will need first responders to staff a chase car, more details to come.
- i. WEMSA Conference: January 21st-24th. Wes and Tirri attending.
- j. New Members, probationary members, or transfers: none.
- k. Any other new business?

- i. Last day to apply for the full time position is January 31st, 2025.
- ii. SCBAs: The packs/bottles on 67 were not ready for service. Garry offered to review how to properly put away packs or fill bottles with the membership. Please reach out to him with any further questions or concerns.

I. Truck Starters:

- i. Fire: Chad, Craig, and Brian
- ii. EMS: Kaitlin and Mollie

Meeting adjourned at 7:17pm.

### **Regular meeting of the Waterloo Water & Light Commission held December 3, 2024**

The meeting was called to order by President Devin Schumann at 6:58pm at the Waterloo Utilities office. Present were Commissioners Pamela Kuhl, Tim Thomas, Chuck Wallace, Superintendent Barry Sorenson, Steve Byrnes and Greg Geier, Van Holten's. Absent Vern Butzine.

### **Minutes**

It was moved by Wallace, seconded by Thomas, to approve the minutes of the November 5, 2024 meeting. Motion carried.

### **Expenditures**

It was moved by Thomas, seconded by Kuhl, to approve the payment of the November bills as presented. Motion carried.

### **Citizen Input**

None.

### **Portzen Pay Request**

It was moved by Thomas, seconded by Kuhl, to recommend to City Council, Portzen pay request #18 in the amount of \$695,672.28. Motion carried.

### **Van Holten's Pretreatment Update**

Steve Byrnes and Greg Geier from Van Holten's, provided an update on their wastewater pretreatment facility. It was moved by Schumann, seconded by Wallace, to waive Category B Industrial penalties for January 2025 loadings, and 50% reduction in penalties for February 2025 loadings. Full penalties will apply on March 1, 2025 going forward. Motion carried.

### **General Info**

Sorenson updated the Commission on developer contact regarding electric service for the corner of 89/Clarkson possible development and of an upcoming meeting with THRIVE.

It was moved by Thomas, seconded by Wallace, to adjourn at 8:09pm. Motion carried.

Respectfully submitted,  
Pamela Kuhl  
Secretary

**Minutes for January 8th 2025 CATV Board Meeting, 6:00 pm**  
**The Solarium, 575 West Madison St. Waterloo, WI**

**1. Roll Call and Call to Order** Abitz, Cotting, Teubert present. Meeting called to order at 6:04 pm.

**2. Approval of Previously Unapproved Meeting Minutes:** November 13th 2024. December 11 cancelled. Abitz/Teubert. Unanimous.

**3. Citizen Input:**

**4. Acting Manager's report. (Cotting)**

WLOO CATV is in its new quarters at The Solarium. There is no new License Agreement yet and the new rental rate is unknown at this time. The new internet connection is 600/35 Mbps. Upload times are less than a third of what they were.

On December 17<sup>th</sup>, Jesus Burgos trained videographers Weihert, Uhlig, and Nighthawk in programming channels 991/992 remotely using Leightronix tutorials and the Nexus software. During the training, Cotting discovered the Nexus computer was networked with Jeanne Ritter's laptop and three Police Department computers. Will Gloyeck, of Taylor Computing, said a cable from the police department was still connected to the City Hall rack, which was why the livestream of Council meetings to YouTube was switching back and forth between the Nexus computer and Ritter's laptop. He disconnected the cable, no problems during the two Council meetings since.

Cotting had many conversations with Spectrum staff in several different departments regarding channels 991 and 992. Technicians visited twice to attempt repairs. Both channels are now audio only. Summary: The "CATV Linx" box, located directly beneath the locked wall mounted "Secor" box in the WLOO alcove, is an encoder which translates the output from the WLOO rack into signal compatible with the Spectrum equipment in the "Secor" box. This encoder may be as old as 45 years. It is failing. It is obsolete, no more are being made, and it is irreparable. If the channels are to function again, a new Drake encoder must be installed and the coax cable in the racks must be replaced with fiber. Gerry Wergin is the new Spectrum employee for this region. He is working with Cotting to create price quotes for SD and HD upgrades. The cost is expected to be much lower than estimates from prior years because there's now fiber all the way to the "Secor" box in the WLOO alcove. Gerry asked Chris Crawford about grants available to help PEG stations upgrade. No reply yet.

**5. New Business**

- a. **Year End Budget Review:** The official December 24 monthly financial report was not available yet. However, Cotting estimated WLOO was \$1,200 under its revised 2024 budget.
- b. **Channels 991/992** The Board discussed the technical issues making the channels non-functional. No action can be taken until Spectrum provides price quotes for repairs and SD/HD service.
- c. **Leightronix Total Info subscription renewals** due January 15<sup>th</sup>. Over \$1200 for each channel.  
**Motion by Teubert:** Cancel Total Info subscriptions due to Spectrum's assessment both channels are unable to broadcast due to outdated and non-functional equipment. Teubert/Abitz.  
**Roll Call: Abitz Yes, Cotting Yes, Teubert Yes.**

**6. Unfinished Business.**

- a. Review of Station Manager Job Description and Previous Hiring Processes: Discussion, no action.
- b. Attracting Station Investors: Discussion, No action.

**7. Future Agenda Items and Announcements.**

- a. The Solarium Rental License Agreement.
- b. Spectrum Price Quotes and Next Steps

Next Meeting: **Wednesday, February 12th, 2025** at 6:00 pm at The Solarium.

**8. Adjournment Motion** Teubert/Abitz. Unanimous. **Meeting adjourned at 6:55 pm.**

**Minutes respectfully submitted January 9<sup>th</sup>, 2025 by**  
**Laura Cotting**  
**WLOO CATV Regulatory Board Chair and Acting Manager**

**Subject:** Re: bridge Inspection

Good Morning Chad,

We would estimate the structural repairs for a contractor to be around \$15,000-\$20,000. The design fee estimate I provided could also potentially be lower based on our level of involvement such as only creating plan/prep documents versus working up through the bid process for the City.

Thanks,

**CORRE**

You don't often get email from [dpw@waterloowi.us](mailto:dpw@waterloowi.us). [Learn why this is important](#)

Andrew

I received the pedestrian bridge report from Brian Udovich that your company completed for the city of Waterloo. I see you have a \$4900.00 engineering fee for the recommended repair designs. Do you have any idea what the actual repairs would cost?

**Resolution No. 2025-02**

**A Resolution Accepting an Estimate from CORRE Design Services for Pedestrian Bridge in Waterloo Fireman's Park**

**Whereas**, the Department of Public Works (DPW) is looking for maintenance recommendations for the Pedestrian Bridge in Waterloo Fireman's Park; and

**Whereas**, CORRE Design Services has submitted an estimate for this project in the amount of \$4,900.00; and

**Whereas**, the available funds would be allocated from \_\_\_\_\_;

Now, therefore, be it resolved that the estimate from CORRE Design Services is accepted. The funds in the amount of \$4,900.00 from \_\_\_\_\_ are allocated for this purpose.

Passed and adopted by the City of Waterloo on this 16<sup>th</sup> day of January 2025

City of Waterloo

Signed: \_\_\_\_\_  
Jenifer Quimby  
Mayor

Attest:

\_\_\_\_\_

## 2024 Pedestrian Bridge Inspections Waterloo Firemen's Park

Dear Mr. Yerges:

CORRE, Inc. (CORRE) has completed a routine, visual inspection of the two (2) pedestrian bridges in Firemen's Park over the Mauneshia River. The following is a summary of the inspection findings, photographs taken during the inspection, and maintenance recommendations for each structure.

### #1 - WEST PEDESTRIAN BRIDGE (NEAR PARK AVE ENTRANCE)

The structure is a single span, prefabricated, steel truss superstructure with an overall length of 95' and 8' width between rails. The truss is comprised of self-weathering steel with a concrete overlay and galvanized stay-in-place forms. The structure is rated for 5 Tons per the manufacturer's loading plate. For the purposes of the inspection, the bridge is considered to be running North and South. It is our understanding that this bridge remains open during the winter months and is subject to deicing and snow removal operations.

Overall, the structure is in good condition. The following are detailed inspection observations for each bridge element.

- **Approach Path:** Both ends are settled at the bridge up to 1.5", with the worst settlement being at the North end. The joints at each end are unsealed and open, allowing water to leak down to the abutment and affect the steel floor beams, abutment concrete, and concrete overlay.
- **Concrete Overlay:** The overlay is in good condition along the top surface, but fair condition beneath near the abutments. There is some insignificant cracking in the surface, but no other defects were noted. The galvanized stay-in-place (SIP) forms below have moderate to severe corrosion at both abutments as well as each construction joint in the concrete overlay. This corrosion is due to water leakage through the joints and de-icing efforts. Corroded portions at the abutments have areas of full section loss in the forms, and also exhibits concrete which has spalled off and exposed the reinforcing steel.
- **Bridge Rails:** The steel railings show no defects. The wooden rub rail has sections with checks/splits – specifically the East rail, 4<sup>th</sup> board from the North.
- **Reinforced Concrete Abutments:** Both abutments have rust staining from leaking through the open joints above. The North abutment has spalled concrete at the top corner beneath the northwest bearing pad exposing the anchor bolt. The South abutment exhibited no other defects.
- **Steel Truss Superstructure:** The truss is in relatively good condition with exceptions at the Northern-most and Southern-most transverse floor beams. Each of these floor beams exhibits severe corrosion and section loss due to water leakage from the open joints. Both floor beams have sections with full section loss holes due to the corrosion.

*East elevation view*

*North approach pavement settlement*

*North abutment spall at northeast bearing plate*

*Severe corrosion at north floor beam*

*Section loss and corrosion at North floor beam*

*Concrete spall/exposed reinforcing steel at North SIP forms*

## MAINTENANCE RECOMMENDATIONS

The following maintenance recommendations, including priority rankings (low, medium, high), we feel should be taken in the next 3-5 years to preserve the structure and extend its useful life:

- **Repair Corroded Floor Beams - High:** The end floor beams at each abutment should be removed and replaced. After replacement, the last 10' of the steel truss lower cord and floor beams should be painted to preserve the self-weathering steel.
- **Repair Galvanized Stay-in-Place Forms – High:** While the floor beams are removed for repair, the SIP forms with corrosion should be cleaned and painted with a galvanizing paint. The areas of exposed concrete and reinforcing steel should be repaired. Exposed reinforcing steel should be cleaned and painted with a 2-part epoxy paint and the concrete should be repaired with a surface repair material.
- **Approach Pavement and Joints – High:** Approach pavement should be wedged or resurfaced to match bridge's walking surface elevation. The open joints at each end should be sealed with a flexible, pourable joint sealant to prevent water leakage through joint.
- **Concrete Overlay – Medium:** Seal transverse construction joints with a flexible/pourable joint sealant to prevent water leakage through joint.

## #2 – EAST PEDESTRIAN BRIDGE (NEAR BASEBALL FIELD)

The structure is a single span, prefabricated, steel truss superstructure with an overall length of approximately 75' and 8' width between rails. The truss is comprised of self-weathering steel with a concrete overlay and galvanized stay-in-place forms. The structure is rated for 5 Tons per the manufacturer's loading plate. For the purposes of the inspection, the bridge is considered to be running East and West. It is our understanding that this bridge is not salted/de-iced during the winter months.

Overall, the structure is in very good condition. The following are detailed inspection observations for each bridge element.

- **Approach Path:** Both ends are settled at the bridge up to 3/4" and have previously been wedged with additional asphalt. The joints at each end are unsealed and open, allowing water to leak down to the abutment and potentially affect the steel floor beams, abutment concrete, and concrete overlay.
- **Concrete Overlay:** The overlay is in good condition with some insignificant cracking in the surface, but no other defects were noted. The galvanized stay-in-place (SIP) forms exhibit no defects.
- **Bridge Rails:** The steel railings and wooden rub rail have algae growth throughout, but no other noted defects.
- **Reinforced Concrete Abutments:** Both abutments are in good condition. The West abutment, northwest corner, has a small section with minor map cracking that is delaminated but has not spalled off.
- **Steel Truss Superstructure:** The truss is in good condition and has algae growth throughout, but no other defects were noted.

*South elevation view*

*West approach pavement and longitudinal view looking East*

*Typical algae growth on rails and truss*

*Typical view of SIP and truss lower cord*

*West abutment and floor beam typical condition*

*Minor map cracks at West abutment, North bearing*

## MAINTENANCE RECOMMENDATIONS

The following maintenance recommendations, including priority rankings (low, medium, high), we feel should be taken in the next 3-5 years to preserve the structure and extend its useful life:

- **Clean Truss and Rails - Low:** The algae growth throughout the structure should be cleaned or power-washed off to limit moisture being trapped against the steel which can lead to corrosion and deterioration of the self-weathering steel members.
- **Approaches and Joints – Medium:** Spray vegetation and brush to remove/kill growth from approaches, pavement joints and surrounding abutment/wing walls.

## ADDITIONAL SERVICES

If the City would like to pursue the above maintenance recommendations, CORRE is able to provide engineering design services to develop a set of maintenance and repair plans for the structural repairs listed for the West pedestrian bridge. To complete these design services, CORRE estimates a cost of \$4900.00. The final cost would be adjusted based on the scope and needs should the City choose to use CORRE's engineering services.

Should you have any questions, please feel free to contact me at the information provided below. We appreciate the opportunity to provide bridge inspection services for the City and look forward to working with you in the future.

Sincerely,

**CORRE, Inc.**

## RESOLUTION #2025-03

### Rate and Fee Schedule Update for Waterloo Parks

The Common Council of the City of Waterloo, Wisconsin does hereby resolve as follows:

**Whereas**, from time to time it is beneficial to review and revise Waterloo Parks rates and fees charged for rentals or services, and;

**Whereas**, an updated schedule is attached for City Council consideration.

Be It Resolved that the Waterloo City Council adopts the fee schedule as presented.

Date Approved: 01/16/2025

Vote:

City of Waterloo

Signed: \_\_\_\_\_  
Jenifer Quimby, Mayor

Attest:

\_\_\_\_\_  
Jeanne Ritter, Clerk/Deputy Treasurer

# WATERLOO FIREMEN'S PARK

## FEE SCHEDULE - 2022

### BUILDINGS & GROUNDS FEES

	RESIDENT <u>PRIVATE</u>	NON-RESIDENT <u>PRIVATE</u>	RESIDENT <u>PUBLIC</u>	NON-RESIDENT <u>PUBLIC</u>

## Jeanne Ritter

---

**From:** Laura Cotting <cottingel@gmail.com>  
**Sent:** Thursday, January 9, 2025 1:48 PM  
**To:** Lana Nelson; Sarah Davison; Jeanne Ritter; Rich Weihert  
**Cc:** Jeni Quimby; Chad Teubert; Kate Abitz; kateeduc8@gmail.com; WLOO CATV  
**Subject:** Leightronix Subscriptions due January 15th and Brief WLOO Update  
**Attachments:** 01-08-25 CATV Board Minutes.docx

Good Afternoon,

WLOO Channels 991/992 are no longer functional due to the irreparable failure of the CATV Linx encoder, a 40+ year old and essential component of WLOO's broadcasting equipment. The WLOO CATV Regulatory Board is waiting for Spectrum's price quote to replace the equipment, which has been promised within the next two weeks. If the Board decides to replace the equipment Spectrum estimates it will take 3-6 months.

The Board sees no point in renewing WLOO's subscriptions to Leightronix program services when the channels are unable to broadcast their content, and voted to cancel the subscriptions at its meeting last night. Please see the attached (unapproved) minutes from last night's meeting for documentation, and for the Manager's report. Although I have contacted Mike Dykstra (WLOO's Leightronix CSR) about this decision, I'm reaching out to you today just in case someone else in the Leightronix organization notices the due date of January 15th has passed and attempts to bill your office.

WLOO will renew its Leightronix Viebit L-500 Livestreaming service subscription, also due January 15th. I asked Mike Dykstra to provide an invoice. In the past, WLOO has renewed its Leightronix subscriptions with its municipal credit card. Since the card is personalized with the Manager's name, WLOO is not using a municipal credit card until a new Manager is hired.

--

Thank you,

Laura Cotting  
WLOO CATV  
1-608-658-1626

## ORDINANCE #2025-01

### An Ordinance Amending Section §340-27 Collection of Bills in Arrears

The Common Council of the City of Waterloo, Wisconsin do ordain as follows:

#### Section 1: §340-27

- A. Authority. All water, sewer, and electric service charges unpaid and in arrears on October 1 of each year shall be collected in accordance with the procedure hereinafter provided pursuant to the authority granted in §§ 66.0809(3), 66.0821(4)(c), and 66.0627, Wis. Stats., respectively.
- B. Procedure.
- (1) On ~~or about~~ October 1 of each year, the Waterloo Water and Light Utility shall ~~furnish the Clerk-Treasurer~~ compile a list of all unpaid utility bills, including penalties, which are in arrears.
  - (2) On October 15 of each year, the ~~Clerk-Treasurer~~ Utility Representative shall mail a notice of such arrearages by first class mail to the occupant and to the owner of the premises receiving such utility service.
  - (3) In the event any such utility bill is not paid by November 1 thereafter, the ~~Clerk-Treasurer~~ Utility Representative shall add a penalty of 10%.
  - (4) In the event any such utility bill is not paid on or before November 15 thereafter, the ~~Clerk-Treasurer, on November 16, shall place the amount of such arrearages, together with penalty, on the tax roll as a tax against the lot or parcel of real estate for which water, sewer, and electric services were provided~~ Utility Representative shall provide the City Representative a list of all arrearages to be placed on the tax roll. The City Representative shall place the provided arrearage amounts on the tax roll as a lien against the lot or parcel of real estate. In the case of a manufactured or mobile home for which utility services are furnished and metered directly, the delinquent amount becomes a lien on the manufactured home or mobile home unit rather than a lien on the parcel of real estate on which the manufactured home or mobile home unit is located.

Section 2: This ordinance shall take effect and be in force after its passage and publication in a manner provided for by law.

Acted on and adopted at a result meeting of the Common Council on January 16<sup>th</sup>, 2025.

**CITY OF WATERLOO**

**Resolution 2025-04**

**A Resolution Accepting the Quote from Napleton Columbus for a Truck for the Department of Public Works (DPW).**

**Whereas**, the Department of Public Works in the City of Waterloo requires a new work truck for maintenance and improvement tasks; and

**Whereas**, Napleton Columbus has provided a quote for the purchase of a 2025 Ford Super Duty F-550 DRW (F5G0 XL 2WD Reg Cab 169" WB 84" CA for \$89,656.50, which is deemed fair and competitive; and

**Whereas**, Napleton Chevrolet Columbus has provided a quote for the purchase of a 2025 Chevrolet Silverado MD (CC56403) 2WD Reg Cab Work Truck for \$83,251.50, which is deemed fair and competitive and;

**Whereas**, both vehicles would include a stainless steel dump body and;

**Whereas**, the Department of Public Works has this in its 2025 budget.

Now, therefore, be it resolved by the City Council of Waterloo, that:

1. The Department of Public Works is authorized to proceed with the purchase of the 2025 Ford Super Duty F-550 DRW (F5G0 XL 2WD Reg Cab 169" WB 84" CA.
2. The truck will be purchased from Napleton Columbus for \$89,656.50, paid in full from the 2025 budget.
3. This resolution shall take effect immediately upon adoption.

Introduced and passed by the City Council of Waterloo on this 16<sup>th</sup> day of January, 2025.

Signed: \_\_\_\_\_  
Jenifer Quimby Mayor of Waterloo

Attest: \_\_\_\_\_  
Jeanne Ritter, City Clerk/Deputy Treasurer

## Technical Specifications

### Powertrain

#### Transmission

Drivetrain	Rear Wheel Drive	Trans Order Code	MWA
Trans Type	6	Trans Description Cont.	Automatic
Trans Description Cont. Again	N/A	First Gear Ratio (:1)	3.10
Second Gear Ratio (:1)	1.80	Third Gear Ratio (:1)	1.40
Fourth Gear Ratio (:1)	1.00	Fifth Gear Ratio (:1)	0.70
Sixth Gear Ratio (:1)	0.61	Reverse Ratio (:1)	N/A
Clutch Size	N/A	Trans Power Take Off	N/A
Final Drive Axle Ratio (:1)	N/A	Transfer Case Model	N/A
Transfer Case Power Take Off	N/A	Second Reverse Gear Ratio (:1)	N/A
Third Reverse Gear Ratio (:1)	N/A	Fourth Reverse Gear Ratio (:1)	N/A
Fifth Reverse Gear Ratio (:1)	N/A	Sixth Reverse Gear Ratio (:1)	N/A
Transmission Manufacturer	Allison	Transmission Type	A1700HS Allison

#### Engine

Engine Order Code	L5D	Engine Type	Turbocharged Diesel V8
Displacement	6.6L/402	Fuel System	Direct Injection
SAE Net Horsepower @ RPM	350 @ 2700	SAE Net Torque @ RPM	750 @ 1400
Engine Oil Cooler	Yes	Governed Engine Speed (RPM)	2900
Engine Series	Duramax		

#### Electrical

Cold Cranking Amps @ 0° F (Primary)	1100	Cold Cranking Amps @ 0° F (2nd)	1100
Cold Cranking Amps @ 0° F (3rd)	N/A	Maximum Alternator Capacity (amps)	150

#### Cooling System

Total Cooling System Capacity	48 qts
